

Notice of Completion

Environmental Screening

Grand Valley Wind Farm Project

East Luther Grand Valley Township

Grand Valley Wind Farms Inc. is proposing to construct nine wind power turbines for a maximum of 18.0 MW of electrical power. The project is to be located on agricultural land leased in the Township of East Luther Grand Valley. As a requirement prior to construction, the project is subject to the Ministry of the Environment's Environmental Screening Process for Electricity projects over 2.0 MW. The project is bordered on the north by Highway 89, the east by Amaranth-East Luther Townline, the south by Concession Road 8-9, and the west by Sideroad 24-25. (see map).

An Environmental Screening Report ("ESR") has been prepared as required under Ontario Regulation 116/01 of the Environmental Assessment Act. The ESR was completed as required for a Category B project under the "Guide to Environmental Assessment Requirements for Electricity Projects, March 2001" ("EA Guide"), as released by the Ontario Ministry of the Environment's ("MOE") Environmental Assessment and Approvals Branch.

The proposed project has been reviewed in a process consistent with the MOE's Environmental Screening Process for electricity projects, the results of which are described in the Grand Valley Wind Farm Project ESR (July 2008). The results of the ESR indicate that there are no significant negative effects and Grand Valley Wind Farms Inc. intends to proceed with the project.

In compliance with Ontario Regulation 116/01 the ESR must be made available for a minimum 30-calendar day stakeholder review period. Thus, this ESR is being made available for review and comment from July 24th, 2008 through to August 25th, 2008.

Hard copies of the ESR may be found during this review period at the following public locations:

Township of East Luther Grand Valley
5 Main St. N, P.O. Box 249
Grand Valley, Ontario

Grand Valley Public Library
4 Amaranth St. East
Grand Valley, Ontario

The ESR may also be viewed electronically at the following website: www.Windrush-Energy.com. Grand Valley Wind Farms must receive all comments regarding the Grand Valley Wind Farm Project and/or the ESR no later than 5:00 p.m. on August 25th, 2008. All comments and correspondence should be sent to one of the following:

John Nicholson
Environmental Business Consultants
33 Wantia Road
Mississauga, Ontario L5G 1L3

J.C. Pennie, Chairman
Grand Valley Wind Farms Inc.
3042 Concession Road 3 Adjala, RR1
Palgrave, Ontario L0N 1P0

As per the process outlined in the EA Guide, stakeholders must first attempt to resolve any outstanding issues with Grand Valley Wind Farms Inc. during the 30-calendar day period. In the event that issues cannot be resolved with Grand Valley Wind Farms Inc. during the review period the concerned party may make a written request, to the Director of the MOE's Environmental Assessment and Approvals Branch at the address noted below, to elevate the project to either an Environmental Review or Individual Environmental Assessment. A copy of the elevation request must also be sent to Grand Valley Wind Farms at one of the two addresses noted above.

Director of Environmental Assessment and Approvals Branch
Ministry of the Environment
2 St. Clair Avenue West, Floor 12A
Toronto, Ontario
M4V 1L5

Elevation requests must be made in accordance with the provisions set out in the MOE's EA Guide and be received by the MOE's Director of the Environmental Assessment and Approvals Branch and Grand Valley Wind Farms Inc no later than 5:00 p.m. on August 25th, 2008. A copy of the MOE's EA Guide is available on their website (www.ene.gov.on.ca/envision/gp/4021e.pdf).
